Wine list

***All the wines of our catalog are subject to
strict quality control with the most modern
reliable evaluation methods.
Responsible Oenologist: Dimitrakakis L. Christos***

The production and consumption of wine during the Byzantine period were part of the nutritional tradition of the wider area of the empire.

The Byzantines loved wine and had a wide variety of wines.

Viticulture for the most part was done mainly by monks.

Each wine was mentioned with the name of the area where it came from.

The Byzantines did not dilute their wine with water, in fact, they drank it hot, a custom that was a sign of luxury after dinner for spiritual discussion ...

Especially in an important meeting, especially at a Symposium.

In case of shortage, the next available vintage will be presented

In a world of endless wine choices, it's hard to know what to try next.
Coravin Timeless pairs you with the perfect wines from the past and present.

The Coravin Timeless System allows you to enjoy our finest wines without pulling the cork. The innovative Coravin Needle penetrates the cork. Once we tip the bottle and pour, Argon gas pressurizes the bottle, allowing wine to flow out the spout, then blankets remaining wine. The cork remains intact and ready for use at a later date.

No oxidation means that your wines stay fresh and as the winemaker intended.
